Ser Solar

Inspirados pela Natureza, temos a mais alta tecnologia de iluminação solar.

O nosso compromisso: oferecer-lhe uma vasta gama de energias solares inteligentes, potentes e resistentes, combinando tecnologia e design.

Projetados com os componentes mais eficientes que oferecem ótimo desempenho, concentramo-nos tanto quanto possível na facilidade de uso e na capacidade de reparação.

Feito na Terra, alimentado pelo Sol.

Be Solar

Inspired by Nature, we have been developing solar lighting technology for many years.

Our commitment: to offer you a wide range of intelligent, powerful and durable solar lightings combining technology and design.

Designed with the most efficient components that offer optimal performances, we focus as much as possible on ease of use and reparability.

Made on Earth, powered by the Sun.

OUTDOOR DESIGN

« A iluminação solar é produzida a 3D em Sainte-Victoire »

Era uma vez, quando o design original encontra a tecnologia inovadora! Os dois estão a unir-se para criar uma linha de luzes solares a meio caminho entre a produção artesanal e industrial. Do candeeiro de mesa ao abajur, uma nova coleção reciclada e reciclável que faz todo o sentido com os nossos módulos solares.

«3D printed solar lights in our workshop at the bottom of St Victory»

Once upon a time, when original design meets innovative technology! The two are coming together to create a range of solar lights halfway between craft and industrial production. From table lamp to lampshade, a new recycled & recyclable collection that makes all sense with our LES JARDINS® solar modules!
